Resume

- Highlights of qualification*
- **Project management** expertise including budget responsibility and creative project lead
 - **Key account management** experience
 - Effective communicator through visual means
 - Extensive **Alias Studio** modeling skills from sketch models to high end production models
 - Proven ability to work in teams

I am fluent in **english**, I lived in the United States for about 5 years in total.

Through my past work and university projects I have acquired very good knowledge in working with diverse **software packages** including **Alias Studio** Level 3, Rhinoceros Level 2, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Microsoft Office and others.

- Work experience*
- Since March 2008 Senior Industriedesigner

LUNAR Europe GmbH Munich, Germany www.lunar-europe.com

I am the senior designer leading the industrial design team for the European branch of Lunar Inc., USA, managing projects with budget responsibility but also taking part in all creative processes. Our clients range from telecommunication products for Gigaset and Vodafone, workstations, laptops and displays for Fujitsu and Hewlett-Packard to professional label printers for DYMO and also kitchen appliances for Bosch & Siemens. Creating design languages and concept products to act as future visions, I am a key part to paving the road to new product experiences.

- January 2007 - December 2007 Senior Industrial Designer

zweigrad Hamburg, Germany www.zweigrad.de

Working for the small interdisciplinary team at zweigrad in Hamburg, Germany, our clients range from aviation to industrial and medical equipment companies creating concepts, designs and graphical user interfaces.

- November 2001 - June 2006 Senior Industrial Designer

designafairs Munich, Germany www.designafairs.com

Being part of the industrial design unit I worked on a numerous mobile phone, cordless phone and accessories projects creating concept sketches, presentation renderings, and Alias Studio sketch-models, 3D data for exporting to engineering and 3D renderings. Gathered project management expertise by leading teams on projects and was Siemens Mobile accessories key account manager from 2003 to 2005.
